

Set up your iPad

Cheng-Kai Kao, MD

Section of Hospital Medicine

iPad Project Objectives

- Introduce mobile technology into modern healthcare
- Enhance patient care and education
- Enhance resident education/supervision
- Enhance research
- Enhance communication of sectional affairs

Get stuff together!

- Complete iPad PRE-use survey first (contact Ana Lopez)
- iPad
- moduIR slim case (black)
- Hand strap
- Shoulder strap with stylus
- Screen protectors (coming soon in December!)

Outline

- **Set Up Internet**
- **iPad Project Homepage**
- **Establish Security**
- **Install MobileIron**
- **Set Up Epic and Sandbox**
- **Set Up Email Accounts**
- **Set Up VPN**

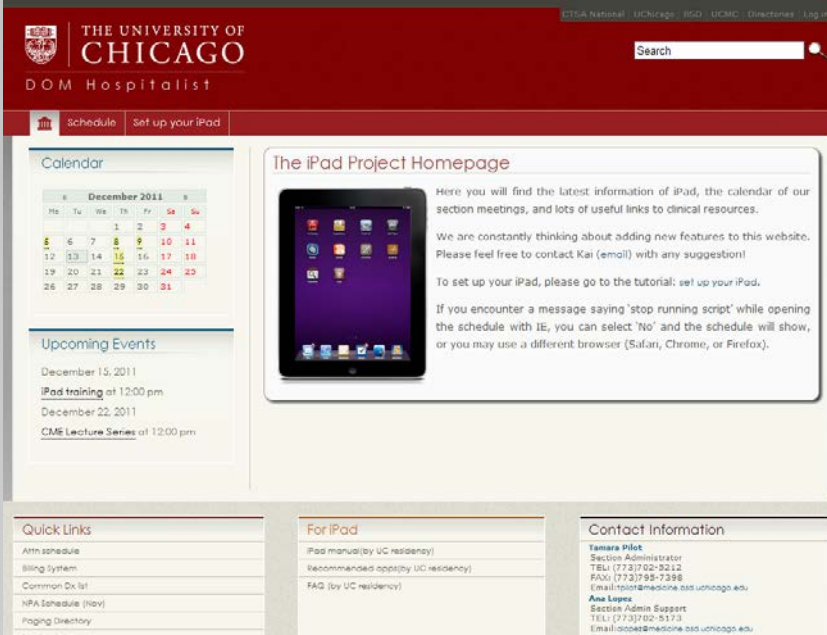

Set up your internet first

- Turn on your iPad
- Follow the factory instructions to set up your account. Please create an **Apple ID** if you do not have one.
- Go to **Settings**  → **Wi-Fi**
- Choose **ucmc-staff**
- Enter your **Epic ID/PW**.
- When a certificate shows up, click accept.

The iPad Project Homepage

- <http://wordpress.uchospitals.edu/hospitalist/>
- A window to the section calendars, the most updated clinical schedule, and lots of useful resources!

The screenshot shows the homepage of the iPad Project. The header features the University of Chicago logo and the text "THE UNIVERSITY OF CHICAGO" and "DOM Hospitalist". A search bar is located in the top right corner. Below the header, there are two main columns. The left column contains a "Calendar" section for December 2011, showing dates from 1 to 31. Below the calendar is an "Upcoming Events" section listing events for December 15, 2011 (iPad training at 12:00 pm), December 22, 2011 (CME Lecture Series at 12:00 pm), and another iPad training event. The right column is titled "The iPad Project Homepage" and contains a paragraph of introductory text, a link to a tutorial, and a note about browser compatibility. Below the main content area, there are three sections: "Quick Links" with a list of links, "For iPad" with links to manuals and FAQs, and "Contact Information" with contact details for Tamara Pilot and Ana Lopez.

The iPad Project Homepage

Here you will find the latest information of iPad, the calendar of our section meetings, and lots of useful links to clinical resources.

We are constantly thinking about adding new features to this website. Please feel free to contact Kai (email) with any suggestion!

To set up your iPad, please go to the tutorial: [set up your iPad](#).

If you encounter a message saying 'stop running script' while opening the schedule with IE, you can select 'No' and the schedule will show, or you may use a different browser (Safari, Chrome, or Firefox).

[Click to Meets](#)

How to add a weblink to your homescreen

- Open your **Safari** browser
- Go to the webpage you would like to add, like **iPad Homepage** or **Paging Directory**
- Tap the arrow at the toolbar and choose **Add to Home Screen**

Establish security

- You must NOT jailbreak or make any attempt to gain elevated privileges on the iPad
- Never leave your iPad unattended
- Go to **Settings** → **General** → **Passcode lock**. Set a **4-digit password**.
- Install **MobileIron** (you have to show the installed app to Ana)

Install MobileIron (1)

- Fill out the mobile device request form at <http://home.uchospitals.edu/forms/mobility>

Choose Enroll New Mobile Device at the bottom of the form, and put in the cost center number, **271801** and Tamara's email: tpilot@medicine.bsd.uchicago.edu

- It may takes up to a few days, and then you will get an email from CBIS regarding steps to install MobileIron.

Install MobileIron (2)

- From your iPad, go to the following site:
<https://vsp.uchospitals.edu/mifs/c/d/ios.html>
- Tap **Get App**.

- Download the **MobileIron MyPhone@Work™ Client** app from the AppStore.

MobileIron Registration

To register you will need to download and launch the **MobileIron MyPhone@Work™ Client** from the App Store.

Get App

Please see the registration instructions in your email inbox for additional details.

MobileIron MyPhone@Work™ Client

Open iTunes to buy and download apps.

What's New in Version

This new version includes expanded

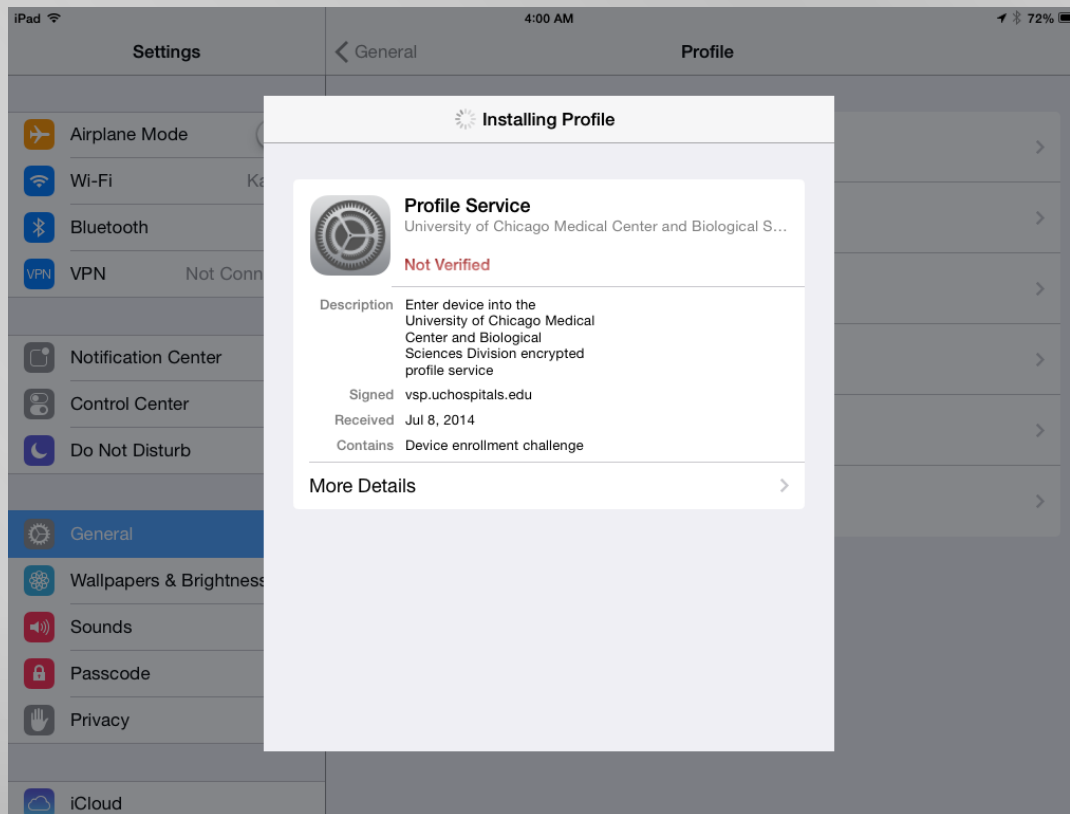

Install MobileIron (3)

- Launch the MobileIron
 - Enter Username: ***yourBSDusername***@bsdad.uchicago.edu
 - Enter Server Address: **vsp.uchospitals.edu**
 - Enter ***yourBSDpassword***
- Click **Register**

The screenshot shows the MobileIron registration interface on an iPad. The status bar at the top indicates 'iPad', signal strength, Wi-Fi, '4:00 AM', and '72%' battery. The app header is red and contains 'Mobile@Work' and a 'Register' button. The registration form consists of three input fields. The first field contains '@bsdad.uchicago.edu', the second contains 'vsp.uchospitals.edu', and the third contains a masked password represented by seven dots. A red rectangular box highlights these three input fields. Below the form is a numeric keypad with digits 1 through 0 and a backspace key.

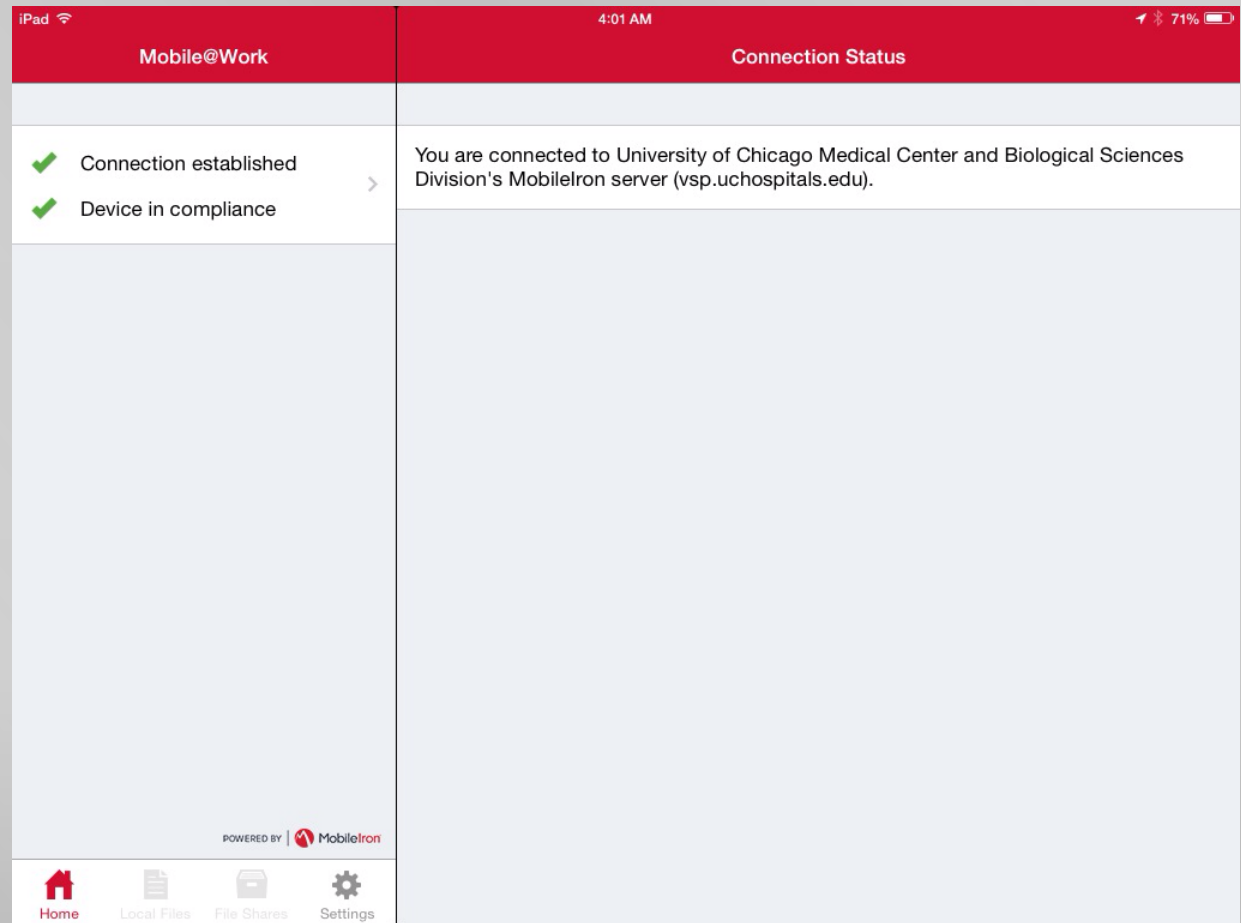

Install MobileIron (4)

- The system will prompt to install UCMC Profile. Click **accept**.

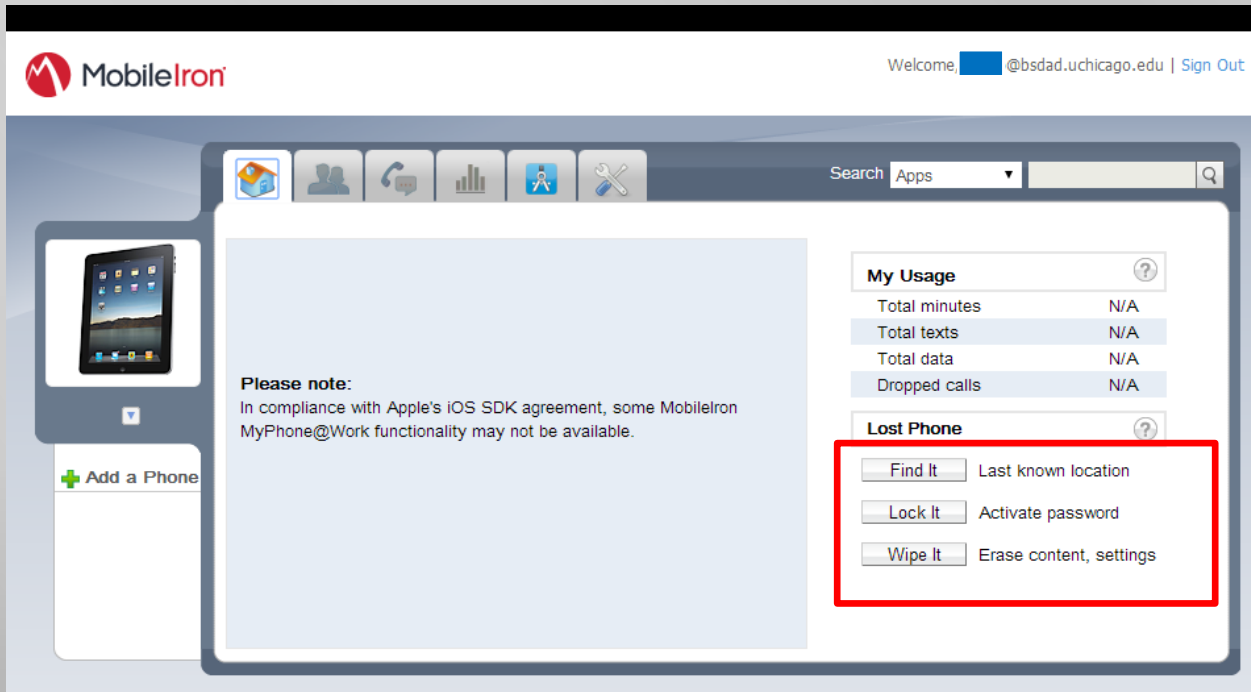

Install MobileIron (5)

- Then you are all set!

Install MobileIron (6)

- You can find, lock, or erase your iPad at <https://vsp.uchospitals.edu/employee/login.jsp> (Login with *yourBSDusername*@bsdad.uchicago.edu & *yourBSDpassword*)

The screenshot shows the MobileIron management console. At the top left is the MobileIron logo. At the top right, it says "Welcome, [redacted]@bsdad.uchicago.edu | Sign Out". Below the header is a navigation bar with icons for Home, Users, Messages, Reports, Settings, and Tools. A search bar contains the word "Apps". On the left side, there is a sidebar with a tablet icon and a button that says "+ Add a Phone". The main content area is divided into two sections. The left section contains a "Please note:" message: "In compliance with Apple's iOS SDK agreement, some MobileIron MyPhone@Work functionality may not be available." The right section contains two panels: "My Usage" and "Lost Phone". The "My Usage" panel shows a table with the following data:

My Usage	
Total minutes	N/A
Total texts	N/A
Total data	N/A
Dropped calls	N/A

The "Lost Phone" panel contains three buttons, each with a corresponding action:

- Find It** Last known location
- Lock It** Activate password
- Wipe It** Erase content, settings

The "Lost Phone" panel and its buttons are highlighted with a red rectangular border.

Set up Epic (1)

- Download **Citrix Receiver** in App store.
- Enter Citrix.
- Click **Add Account**

Set up Epic (2)

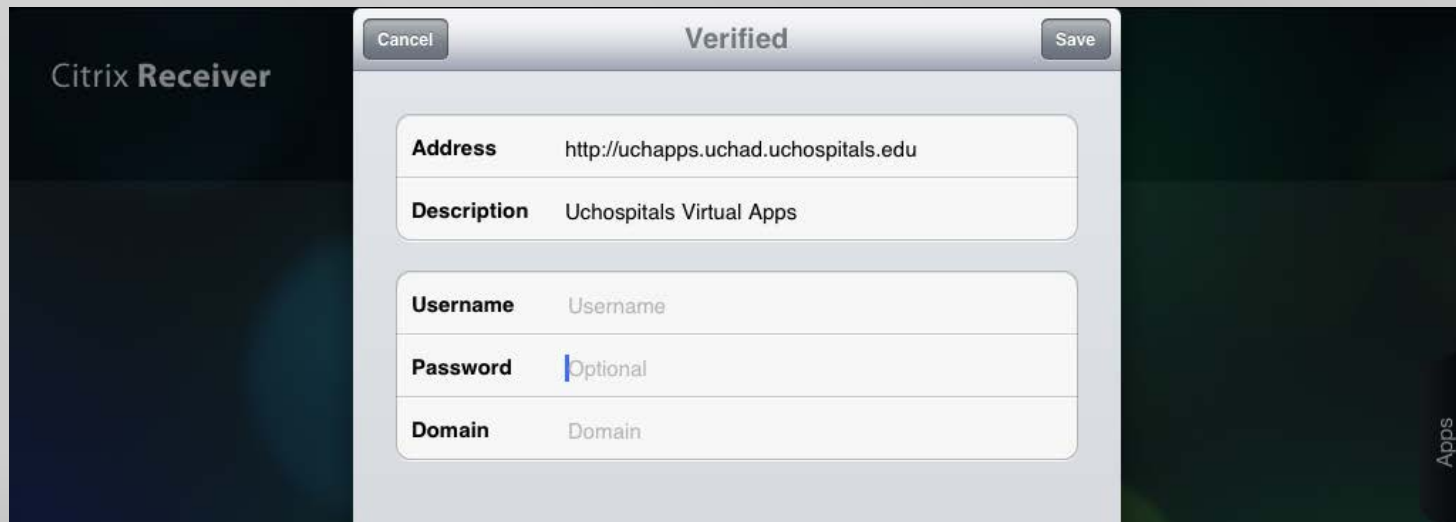

- Address: <http://uchapps.uchad.uchospitals.edu>
(make sure there are no typos)

- Then click **Next**

Set up Epic (3)

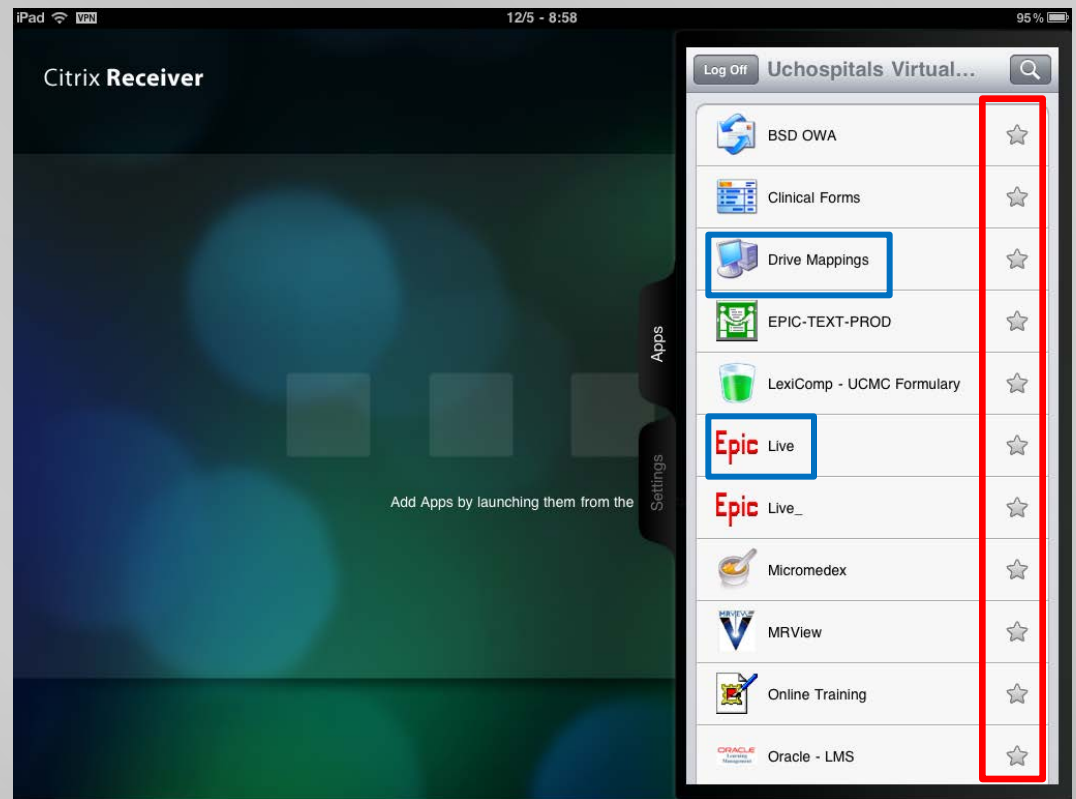

- Username: **your Epic username**
Password: **your Epic password**
Domain: **UCHAD**

- Then click **Save**

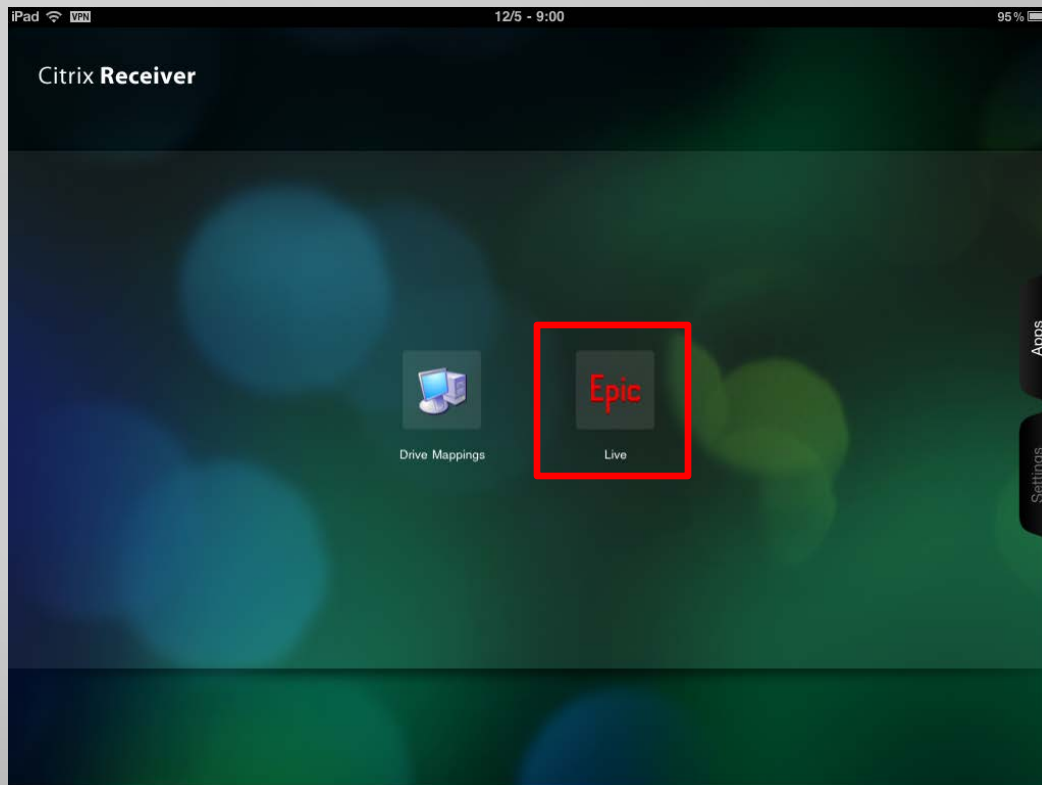

Set up Epic (4)

- Click on the **Stars** next to the apps to add them to the favorites.
- Please at least add **Epic Live** and **Drive Mappings** (for Sandbox)

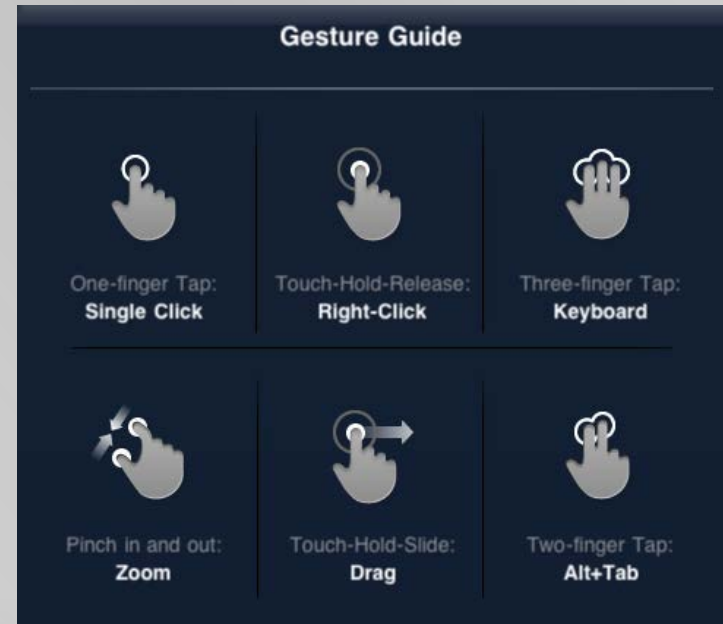

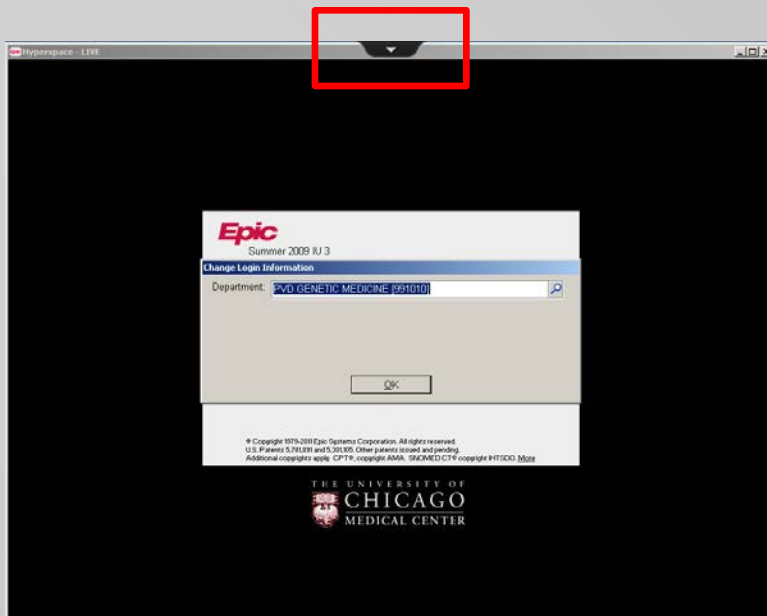

Set up Epic (5)

- Click **Epic**, and then put in **your Epic ID/password**

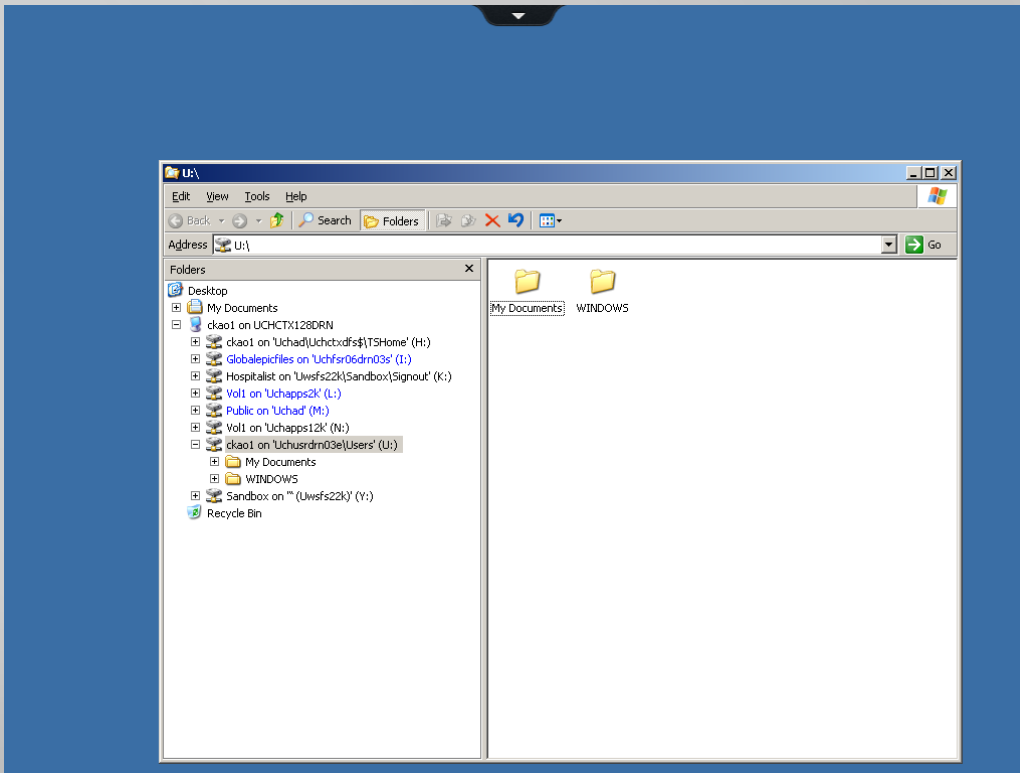

Set up Epic (6)

- Then you can start using Epic! (you can click the arrow on top of the screen)

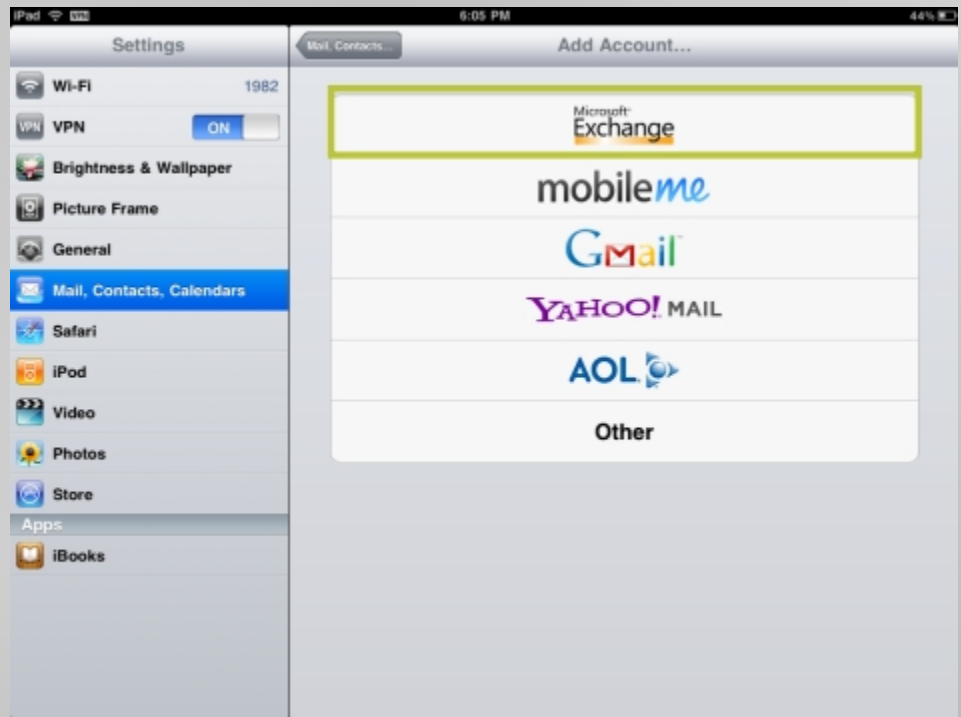

Set up Epic (7)

- You can also access Sandbox via **Drive Mappings**

Set up your email accounts (1)

- Go to **Settings** → Tap **Mail, Contacts, Calendars**
- For Gmail, select **Gmail**
- For BSD and UCMC emails, select **Microsoft Exchange**
- For cMail, select **Other**

Set up your email accounts (2)

- For Gmail, simply enter your email address and it will automatically be set up.
- For BSD and UCMC emails, put in the following info to set up your accounts:

Account	server	Username/ Password	DOMAIN	SSL
BSD emails	mail.bsd.uchicago.edu	BSD ID/PW	N/A	On
UCMC emails	mail.uchospitals.edu	Epic ID/PW	N/A	On

- For cMail, please follow the steps at <http://answers.uchicago.edu/page.php?id=15786>

Set up VPN (1) -optional

- To use Uptodate or hospital network resources outside of the hospital.
- Download the **Cisco AnyConnect** app from App store.

Cisco AnyConnect By Cisco Systems, Inc.

Open iTunes to buy and download apps.

Description

Administrators - If you have any question

What's New in Version 2.5

Please disconnect your VPN connection b
upgrade takes effect.

[View In iTunes](#)

⊕ This app is designed for both
iPhone and iPad

Set up VPN (2)

- Enter UCMC as Description.
- Enter **cvpn.uchicago.edu** as the Server Address
- Leave Network Roaming to "on" and Certificate to "disabled". Do not change the settings. Click **save**.
- Enter your **CNetID and password**. Then click **Connect**.
- Tap **Accept** when the Banner shows up.

Set up VPN (3)

- You will see the VPN icon at the upper left corner. Now you are in the hospital network!
- You will need to launch AnyConnect every time when you access VPN.

Thank you!

Let's enjoy the iPad!
